1897 ASSESSMENT.

LAND AND IMPROVEMENT ASSESS MENTS FOOT UP \$45,000,000.

BANK STOCKS WERE SCALED.

NVILL LAST YEAR'S EQUALIZATION BOARD ACTION BE REPEATED!

A Revolution in Kansas City Is Badly Needed-Some Startling Incountities-Figures Which Will Be Read by Taxpayers With Interest.

City Assessor Yost has just turned over to Treasurer Green the totals of the land and improvement assessments for 1897. The land assessments are \$29,259,690, and the improvements, \$15,065,300, a total of \$44,325,-990, or, in round figures, \$45,000,000. This does not include railroad books, which will be about \$1,900,000. The personal property esement is not included in this. The total assessment for 1897 will be about the

same as last year. Treasurer Green thinks that the assess ent is not what it should be. The rule is to assess land and improvements at 4 per cent of their actual value. This would be all right if the proper values were put follow in the tracks of their predecessors. and in this way the assessments are not at all equal. Mr. Green says that in some cities improvements are not assessed at all. He thinks this an admirable scheme. The improvements are the results of labor, and if they were not assessed there would be a tendency to make more of them, and this would increase the population and give more work to the idle. Even with the assessments as they are. Kansas City has as low taxes in proportion as any city of its size, and, in fact, stands at the head when bonded indebtedness is concerned. This city has a ridiculously small bonded debt, and if the proper assessments were made the taxes would be lighter and the indebtedness smaller. It's total assessment will be about 50,000,000. That of Cleveland, a city but little larger, is nearly \$100,000,000 more. That of Minneapolis is about \$100,000,000.

09,009.

The constitution will not permit the city of levy an assessment of over 10 mills of its assessed valuation. This limit is always ised. Assessor Yost says that he thinks here has been more conscientious lists urned in this year than last, and despite he hard times and shrinkage in values the olal will reach about what it did a year upon.

the hard times and shrinkage in values the total will reach about what it did a year ago.

The total collected for taxes in 1894 was \$800,660; for 1895, \$780,574, and for this year, or 1896, it will be about \$816,600. Last summer, when there was so much agitation about the city going to run behind and salaries were cut. Treasurer Green estimated that the amount colected would be \$816,000. Comptroller Lund fixed it at \$762,500, and the apportionment was made on that basis. It now looks as though the treasurer's estimate would be the right one.

The collection of personal taxes has been a disappointment to every city official who has knowledge of it. It will be about \$10,000 short of the estimate, but other matters have run as much beyond the estimate as the personal collection will be short.

It has always been the case that after the assessments are made and the board of equalisation has fixed the amounts to be taxed that some one finds many things wrong. The time to find this out is beforehand. That there are unequal valuations on the tax books is illustrated almost daily. As an instance: Mr. George Kumpf told a party of gentlemen at the city hall the other day of a case of inadequate valuation. He said that he collected rent from the tax list for only \$8,000. This is not a question of "puil" with the assessor, for the man is a non-resident and does not him tax list for only \$8,000. This is not a question of "puil" with the assessor, for the man is a non-resident and does not him to the tax list for only \$8,000. DESERVED HELP.

A Number of Poor People Who Ap plied to the Mayor Were

Tided Over Sunday. Two little boys, whose clothing hung in tatters and who were almost barefocted, were among the applicants for assistance at the mayor's office yesterday. They were

at the mayor's office yesterday. They were the soms of John Price, who, with his wife and seven children, the oldest 13, lives in a tumbledown shanty at the foot of Wyoming street on a strip of land known as "The Island." Price is sick in bed with pneumonia; an infant is sick with the same disease, and Mrs. Price is afflicted with sore eyes. Mayor Jones gave the boys some money with which to buy shoes; he also gave them some old clothing and an order for E worth of groceries.

Mrs. Ann Smith, a hardworking woman with eight children, living at 415 Laurel avenue, was another applicant. She has been deserted by her husband, and only a few pieces of bread and a few potatoes were between her and starvation yesterday. She was given an order for groceries.

Mayor Jones said yesterday that he would be glad if the churches and all charitably inclined persons would co-operate with him in relieving distress. Any cast-off clothing, shoes, etc., will be called for if the address is sent to the mayor.

Mayor Jones helped the following unfortunate families yesterday, in addition to the sensor. CITY HOSPITAL PLANS.

Superintendent Love Drawing Plans for a Structure in Keeping With Needs of the City.

Kansas City is to have one of the best equipped city hospitals in the country, if the ideas of Superintendent of Buildings Love are carried out. He is drawing up plans for remodeling the old portion of plans for remodeling the old portion of the hospital, building a decagonal clinic in the rear and putting the hospital in first-class shape throughout. The work will cost \$15,000. This sum will be asked of the apportionment committee of the council this spring, in connection with the new workhouse.

workhouse.

One of the new features is to be an autopsy and dead room, to which cold storage is to be added, enabling bodies to be kept for weeks, and even months. At the present time bodies cannot be kept any length ent time sodies cannot be kept any length of time for identification.

The new clinic will also be a feature. It is probable that a fee of \$5 will be charged students, and the city will derive a revenue of something like \$500 or \$1,900 a year. The best medical talent in the city will be at the disposal of the patients, and students will have to pay for the benefits they derive from the clinic.

She Will Probably Get No Damages Assistant City Counselor Laughlia yesterday filed a motion in the circuit court asking for the dismissal of the suit filed against the city by Ellen M. Wilson. Miss Wilson stumbled on the steps in the city hall last fall and was injured, for which she asks the city to pay \$,000 damages. The attorneys for the city maintain that as the city hall is a public building the city cannot be held liable for injuries received therein.

Big Job of Sewer Work.

Michael Waish will do \$35,000 worth of sewer work within the next few months. He was yesterday awarded the contracts for building a sewer in district No. 159, to cost \$21,069.72, and also a joint sewer in districts 103 and 104, to cost \$2,400.30. The large sewer is to drain the territory between Ninth and Twelfth and Woodland and Prespect.

Preparing for a Celebration.

At the meeting of the council to-morrow might the Missouri, Kansas and Texas Trust Company will ask permission to erect arches at Seventh and Wyandotte and 194 West Ninth street. The arches are to be handsomely decorated and will celebrate the completion of the Kansas City, Pittsburg & Gulf to Shreveport, La.

TO CAPITALIZE CHARITY.

LATEST PLAN IN CONNECTION WITH

Exchange Already Open in a Limited Way-Mr. Demaree Will Have Another Talk With

Mayor Jones.

THE LABOR EXCHANGE.

Mr. G. T. Demaree will hold another con ference to-morrow with Mayor Jones re-garding the labor exchange, in which Mr.

Demarce is interested. "The labor exchange is the latest sys-tem offered," said Mr. Demarce yesterday, "and the one which so far has proven the most successful of the almost innumerespecially the problem of the unemployed. The fact that a branch of the labor exchange is now being established in this city gives additional interest to the subject. "The central thought of the Labor ex-change is to capitalize labor and thereby furnish constant employment to all the members of the association, and while thus vitalizing labor to the highest point and stimulating production to the highest degree, to also reduce the cost of distribution to a minimum. The fact that this system, although it is now six years since its author copyrighted the idea, is comparatively unknown is not at all strange when it is remembered that its chief purpose is to employ the unemployed, the pose is to employ the unemployed, the yety class least able to make effective any system that requires even a very moderate amount of capital, and the further fact that those who have employment are slow to interest themselves in the less fortunate. To the want of capital with which to begin operations more than to any other cause may be ascribed the slow development of the Labor exchange. More recently, however, the movement has taken on considerable activity, especially on the Pacific coast, where a large number of highly successful exchanges have been estab-

considerable activity, especially on the Pacidic coast, where a large number of highly successful exchanges have been established."

To overcome the chief obstacle in starting a branch of the exchange in Kansas City—the want of capital—Mr. Demaree has connected with the original plan of capitalizing labor the idea of also capitalizing charity. According to his idea the thousands of dollars which are annually given in Kansas City to help the unemployed should not be given to them directly to be consumed at once, relieving only the distress of a day, and at the end leaving the subjects in the same unfortunate and helpless condition in which they were found. He would have this vast stream of charity made a permanent capital fund and held in trust by competent trustees and used through the Labor exchange to enable laboring men and women to have constant and remunerative employment.

Mr. Demaree says that the people of Kansas City, in the last four years, have given to public and private charity at least \$100,000, fully one-half of which was given to those who were able, and no doubt willing, to earn their own living had the copportunity been offered. He claims that if the \$20,000 which went to those able to labor had been capitalized into a permanent rund and utilized through the labor exchange, a larger number could have supported themselves by their own labors, and rever have consumed a deliar of the original capital.

In order to make a thorough test of this system, a branch of the Labor exchange has been chartered in Kansas City, and has begun operations in a limited way. A large building has been rented at 203-205 Southwest boulding has been rented at 203-205 the mancent can be made. On Monday the exchange will add a printing department which can be used to put an idle printer to work on a weekly paper in the interest of the asso

isn't it?"
"I think the Kansas people will be pretty well satisfied with the laws made at this session," he added. "The Harris railroad bill, with the additions that will be made Monday, will be far and away the best railroad legislation the state ever had and I believe will quite satisfy the people, and there are many other measures that will be welcomed.

ABOUT 1,400 BAVE SIGNED. La Grippe,

MISSOURI NATIONAL DEPOSITORS FAVOR A NEW BANK.

Big Rush the Past Few Days-A Mistake to Suppose That Anybody's Claim Will Have to Be Bought Up.

The reorganization of the defunct Missouri National bank is practically assured, and the chances for the 2,700 depositors re-ceiving at least 75 per cent of their money inside of a year are very bright. Already 1,400 of the depositors have given consent to the proposed reorganization, and there has been a rush of depositors within the last day or two to sign the agreements. A few depositors seem to believe that unani-mous consent is necessary in order to efreorganization plan fail, their claims will The consent of the stockholders whose it; will be sufficient to convince the comp-troller that the depositors favor reorgani-zation. Depositors who are holding off in the hope that their claims will be bought

the hope that their claims will be bought up have been ill-advised by persons who do not understand the law governing the duties of the comptroller of the currency in the case.

City small depositors are slow in signing. All the large creditors of the institution have given their consent. Every bank that is a creditor has consented to the reorganization plan, and this is pointed out as good evidence to hestitating depositors that the quickest way to get their money out of the bank is to aid it in re-establishing itself and become self-sustaining, instead of being a drain on the depositors money. A fine object lesson in receivership of banks and the alleged quick payment on assets of a bank that is closed is presented in the case of the National Bank of Kansas City, which closed its doors two years ago. It has paid 65 per cent in two years, 50 per cent from the assets and the balance by assessing stockholders.

In order to reorganize, the new bank must furnish a capital of \$300,000, which is 50 per cent from the assets and the balance by assessing stockholders.

In order to reorganize, the new hank must furnish a capital of \$300,000, which is 50 per cent of the 55 per cent liability of the defunct Missouri National. There are \$300,000 assets of the bank, so that it would be necessary to collect but \$200,000 of the \$500,000 assets in order to pay the 75 per cent dividends, even if the new bang should not prove a success, which is not probable.

Major Calvin S. Hood, of Emporia, and C. J. Lantry were in the city yesterday looking over the situation. They are both highly encouraged, and seem to think the new bank will surely be established.

LEGAL NOTICES.

IN THE CIRCUST COURT of Jackson county. Missouri, sitting at Kansas City, April term. 1877. Ellen McGrath, plaintiff, vs. Bridget Dillon. Thomas Dillon, John Miller and Alice Miller, defendants. Division No. one, cause 2867. Now, on this 25th day of February, 1877, comes plaintiff, by her attorney, and files her petition in the above entitled cause, stating, among other things, that said defendants. Bridget Dillon. Thomas Dillon, John Miller and Alice Miller, are non-realdents of the state of Missouri, and cannot be served with summons in said state, whereupon the clerk of this court, in vacation, makes the following order: To said defendants. Bridget Dillon. Thomas Dillon, John Miller and Alice Miller; you are hereby notified that Ellen McGrath has commenced suit against you in the circuit court of Jackson county, Missouri, at Kansas City. The object and general nature of the petition is to have the rights and interests of each of you, if any, in and to the real estate hereinatter described, determined; to have said premises partitioned, if it can be done without great prejudice to the parties in interest, and if not, then to have said premises sold and the proceeds thereof divided among said parties according to their respective rights and interests as determined by the court. Said real estate is described as follows: The north twenty feet of the south forty feet of lot one hundred and fifty-one, in block fifteen, Old Town, and lots eight and nine, in block three, in Cosby's addition, all in Kansas City. Jackson county, Missouri. You are required to appear before said court the first day of the next term thereof, to-wit the tweifth day of April, 1897, and on or before the third day of the asid term, answer the said petition, or the same will be taken as comiessed and decree granted as prayed. It is ordered that this be published in The Kansas City Journal, according to law.
